

The desk trunking

30° angled system opening for easy and comfortable access to power and data via switching and connection devices.

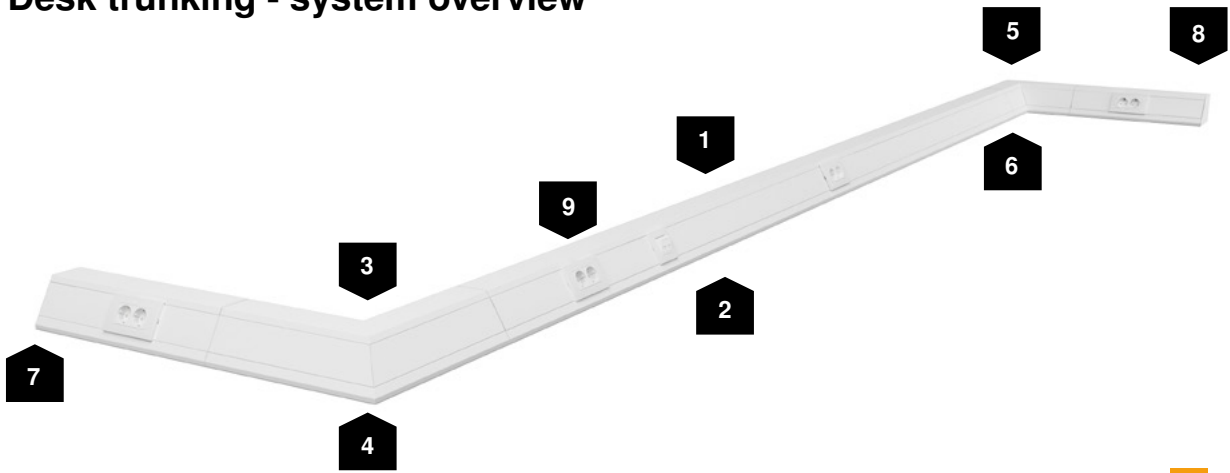

Immediate access to power and data points

30° angled system opening

Solid construction made from powder-coated sheet steel

The sturdy device installation trunking made from sheet steel, with a tough powder-coating in pure white (RAL 9010) can be used in laboratories, educational facilities, assembly workshops or in offices. The system is used primarily at desk height but can also be installed as skirting trunking at floor height. The accessory mounting boxes of the 71 GD ... series can be equipped with any type of switching and connection devices - from data technology to CEE device installation.

Desk trunking - system overview

St Steel

No.	Description	Type	Colour	Length mm	Verp. M	Weight kg/100 m	Item no.
